SUMMARY

Aspiring Full-Stack Developer & UI/UX Designer with a robust technical foundation in Java, JavaScript, and Python. Experienced in bridging the gap between clean code and user-centric design using Figma and modern frameworks. Proven ability to leverage SQL Server and Power BI for data-driven decision-making, alongside a strong background in technical troubleshooting. Eager to apply my multidisciplinary skill set to build secure, innovative software solutions within a collaborative development team.

EXPERIENCE

RAINCLOUD GROUP | Software Development Intern

April 2025 – January 2026

Project 1: Conveyance Management System

(August 2025 – Present)

- **Full-Stack Engineering:** Developed a comprehensive system using Spring Boot and Angular, delivering end-to-end features from backend RESTful API architecture to responsive front-end interfaces.
- **Rapid Technology Adoption:** Demonstrated high technical agility by mastering the Angular/Spring Boot stack and contributing to production code within 6 months.
- **UI/UX Design:** Spearheaded the design phase using Figma to create high-fidelity wireframes and the Raincloud UI branding, ensuring an intuitive user journey for logistics workflows.
- **Quality Assurance:** Acted as a volunteer tester across the SDLC, conducting rigorous testing to ensure software reliability and performance.

Project 2: Human Resource Management (HRM) System

(April 2025 – June 2025)

- **React & Spring Boot Development:** Architected the front-end using ReactJS and integrated it with a Spring Boot backend, focusing on a seamless user experience for employee data management.
- **Brand Identity Design:** Created the Raincloud UI branding and official logo, establishing the design system used across the organization's internal tools.
- **Technical Selection:** Developed this system as a high-stakes entry assessment, resulting in a 100% success rate and selection for the competitive 6-month internship program.

EDUCATION

Tertiary: Tshwane University of Technology

- **Qualification :**
Diploma in Computer
Science

MAJORFIELD

- *Information Security*
- *Internet Programming*
- *Operating Systems*
- *Software Engineering*
- *Mobile Computing*
- *Web Computing*

PROJECTS

- **1: Human Resource
Management (HRM)System**
- **2: Conveyance Management
System**
- **3: TeleClinic**

TECHNICALSKILLS

- **Front-End Development:** Angular, ReactJS, JavaScript (ES6+), HTML5, CSS3, Responsive Design.
- **Back-End Development:** Spring Boot, Java, Python, Kotlin, MySQL, RESTful API Development.
- **Database & Data Management:** SQL Server, Relational Database Design, Microsoft Excel.
- **Design & Prototyping:** Figma (UI/UX), Wireframing, High-Fidelity Mockups, Logo Design.
- **Tools & Version Control:** Git, GitHub, IntelliJ IDEA, VS Code.
